#### **CITIZENS CALL For A GENERAL MOBILIZATION THROUGH CAMEROON**

for the intensification of the operation "**Resistance till the end goal**"

- Cameroonian youth and women,
- Cameroonian Christians, Muslims and other believers,
- Cameroonian associations, trade unions and political parties.

There is a wise saying that: "*The triumph of evil requires only inaction of good men,*" "*What frightens me is not the oppression of the wicked; is the indifference of good*"; "*It is the resignation of the people that fuels and perpetuates dictatorships.*" This leads to argue that anyone who wants honey must have the courage to face the bees.

No responsible family can put off the hunt of a poisonous snake found in the house. Biya and his regime are now snakes to hunt down till their complete neutralization.

With the lack of preparation for presidential elections expected for 7 years, we argue that "**every reason to hesitate is exhausted**" and going together is a necessary option in a show of total and definitive rupture with the regime still unfortunately managing our affairs. Also convinced that only a revolution is able to successfully oppose the regime and its structures of oppression and alienation, we have, since February 2011, initiated "**Operation Resistance till the end goal**" whose ultimate goal is, with the fall of the regime, the holding of a sovereign Conclave to overhaul our government.

With this revolutionary slogan **A bek BIYA MoufDé**, let's dismantle the regime, or among other things, we demand that the Constitutional Council be setup, that the presidential election be in two rounds, the overhaul of the electoral register, that at least 10 million voters are registered, and that 17 years becomes the voting age.

We are citizens and have to behave and treat ourselves as such. So we the people, victims of the Biya regime, our social class, must stop preferring "peace" in the midst of oppression and misery, "tranquility" in the midst of injustice and despair, and get involved forever in this great battle of our time to reclaim from the hands of predatory France, the keys of our true independence.

Of course in serious cases of danger in the community, prayers must be lifted up. But by themselves, without works, they cannot remove the danger when the sheep are already in the grip of predators. The Cameroonian people are suffering. Let's rescue the people from the clutches of predators.

Anyone from our social class, here at home as well as in the Diaspora, which agrees with this approach, should get involved, in any capacity possible, in the ongoing mobilization through towns and villages in Cameroon to awake the citizen. Please feel free to contact us:
